

Medical Home Listserv

TxP2P's Medical Home Listserv was established to provide a forum for the exchange of questions and ideas around the issue of Medical Home. Our goal is to connect families of children with disabilities, chronic illness and special health care needs with physicians and medical personnel in the community. By supporting an open dialogue between families and the medical community we hope to clarify what a medical home is, why every child should have one, and how to work together in partnership to create one.

You are invited to help us accomplish this mission.

Please email jeanine@txp2p.org if you would like to participate in this opportunity.
